

# Round PET Packer Bottles

## Health and Wellness, Reliably Delivered

We pioneered the first glass-to-plastic conversions for amber pill bottles to reduce packaging weight while improving consumer safety. PET is a strong lightweight resin that resembles glass but is shatter resistant. PET packer bottles are now a highly popular choice in the over-the-counter and nutraceutical markets for packaging gummies, tablets, and capsules.

Our PET packer bottles meet USP 671 tight container protocol for moisture vapor and oxygen transmission. We carry standard sizes from 75 - 950 cc with neck finishes of 33-400 to 63-400. Our stock colors are white, clear, green, amber, and blue. Custom shapes, colors, and materials are available. Our bottles can be produced from 0 - 100% post consumer materials (PCR) upon request.
