

Wide-Mouth PP Jars

An Extensive Line of PP Single-, Thick-, and Double-Wall Jars

The shape of our jars makes them ideal for personal care and beauty products in the form of lotions, creams, gels, or putty. Made from polypropylene (PP) they are lightweight, durable, and shatter resistant. We offer jars in various wall thicknesses (single, double, or thick) and capacities to accommodate your budget or distinct brand needs. We also offer in-house decoration and labeling services to boost overall shelf appeal and create eye-catching products. In support of sustainability initiatives, all PP jars can be produced with post-consumer recycle (PCR) content up to 100%.
